Trailer & Equipment Updates

May Maintenance

- Power equipment tested
  - No issues
- Exterior inspected
  - No issues
- Batteries inspected
  - No issues
- CS2 relocation status

June Maintenance

- Monday, June 06
- Power equipment maintenance
- Brake and signal lights

Refresher Training

Trailer Contents and Walkthrough

Trailer Loadout Procedure

Objectives

- Familiarize CERT members with the tools available for deployments and how they are stored
- Show basic layout of gear for use during deployment
- Cover Communications at a high level.
- Detailed Radio Setup instructions are being developed for both trailers
- The realization that each deployment is different and the loadout for each will be fluid based upon the deployment circumstances and objectives.
